

INDUSTRIAL STEEL STAIRS & LANDINGS

Elevate Safety and Accessibility with FCP

FCP industrial stairs and landings are constructed with high-tensile galvanized steel components, designed to withstand the most demanding environments and rigorous applications. Whether you need access indoors or outdoors, our systems are precision-engineered to fit exactly where you need them. Ideal for mezzanines, work platforms, elevated in-plant offices, rooftop stair towers, observation towers, manufacturing applications, architectural projects, and much more.

MODULAR STEEL

STAIRS & LANDINGS

For Industrial Indoor and Outdoor Applications

We welcome the biggest, most demanding, and most complex projects.

There's no substitute for

Experience

When you purchase custom steel stairs and landings from FCP, you also receive the benefit of knowing that FCP proprietary Free-Space Mezzanines™ modular system has been fully tested, approved, and adopted into current building codes. FCP's ConnectRite™ beam-to-column connection system provides approved lateral force resistance for seismic and wind forces which assures there will be no time wasted obtaining a building permit. In fact, it is the first moment-resistant, bi-directional rigid frame system approved by the American Iron and Steel Institute (AISI), adopted by the IBC, CBC, and the American Society of Professional Engineering (ASPE). When experience counts, count on FCP, the innovation leader in modular stair systems.

Design / Engineer

With over 40 years of innovation and expertise, our streamlined design, engineering, and permit process is proven to save time, labor, and money.

Custom Fabrication

We do all the hard work for you. From precise prefabrication to on-time delivery, we excel at tackling even the most complex projects.

Delivery / Installation

With rigid quality control, skilled project management, and industry leading customer service, we provide unmatched support from start to finish.

Unrivaled end-to-end support. We do all the hard work so you don't have to.
